Ontario East Talent Identification Support Project Update **(OE-TISP)**

OE-TISP: 3 Ways to Help Employers with Recruitment

Here are 3 ways you can help employers with recruitment. Tell them about:

- the Ontario Nomination Immigration Program (ONIP)
- Settlement Online Pre-Arrival (SOPA)
- Magnet
- and BONUS #4, the [Ontario East Jobs Blog](#) - where you can learn more about all of these 3 programs.

Women's Entrepreneurship Program - Update

If you're following Ontario East's social media platforms, you'll have already seen our weekly promotion for the Women's Entrepreneurship Program (WEP). If you're not following us yet, you can do so on [Facebook](#), [LinkedIn](#), and [Twitter](#).

Here are three ways you can help us reach our goal to support as many women in our pilot regions as possible:

1. If you know a woman entrepreneur who might benefit from this program, please share this link with her: <https://offers.ontarioeast.ca/learn-about-wep>
2. You can help spread the word about WEP by sharing this link on your own social media platforms and by retweeting and resharing the Ontario East social media posts with your networks: <https://offers.ontarioeast.ca/learn-about-wep>
3. Drop a quick line to your networks via email, or even include the WEP link in your email signature: <https://offers.ontarioeast.ca/learn-about-wep>

With 50% of businesses started by women every year, WEP has the potential to help so many eastern Ontario women entrepreneurs for FREE.

We appreciate your continued support!

Hastings County Employment Opportunity

Cornwall and Belleville Make Top Ten in Maclean's List of Best Communities to Live

Cornwall and **Belleville** have cracked the top 10 in a list of Best Communities to live in Canada compiled by Maclean's magazine.

The magazine has ranked Cornwall as #8 and Belleville as #4 on its 2021 list which reviewed 415 communities from coast to coast.

The question of where to live when you can work from anywhere was the focus of this year's list, which Maclean's is calling its "post-pandemic" version of their Best Communities ranking. Using data provided by Environics Analytics and the Canadian Internet Registration Authority (CIRA), as well as publicly available figures from a variety of sources, the magazine weighted a range of categories based on how important each would be to the average person and ranked each municipality accordingly.

Ontario Investing in Domestic Medical Technology Manufacturing To Ensure Future Preparedness

News Release, May 25, 2021

Ottawa — The Ontario government is investing \$2.5 million in Siemens Healthineers through the Ontario Together Fund. The investment will help increase production capacity of the epoc Blood Analysis System, a handheld device that can analyze oxygen levels in blood, helping clinicians make faster decisions with lab-quality results at the patient's side. The project is expected to create 93 jobs over five years. To scale up their production capacity, Siemens Healthineers is investing over \$20 million into their Ottawa facilities to increase their manufacturing output.

Innovative projects like this are why Ontario is investing an additional \$50 million in the renewed Ontario Together Fund in 2021–22. The fund will continue supporting local businesses to further enhance Ontario's domestic supply chain capacity, help us through the pandemic and ensure we are prepared for future challenges...

"The renewed Ontario Together Fund will continue to strengthen our domestic manufacturing sector, support local innovators and boost our world-class MedTech ecosystem," said Vic Fedeli, Minister of Economic Development, Job Creation and Trade. "Companies like Siemens Healthineers and their epoc Blood Analysis System are a perfect example of projects that can transform our ability to respond to a crisis and enhance our

resilience while strengthening our health care system.”
